

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently Amended) Rubber material ~~for wiper blades of windshield wipers or for motor vehicle tires~~; characterized in that it contains a copolymer based on isoprene and at least one further polymerizable monomer.
2. (Original) Rubber material according to Claim 1, characterized in that it contains a copolymer made of isoprene and butadiene.
3. (Previously Presented) Rubber material according to Claim 1, characterized in that it also contains a filler material, and that the filler material is a mixture of furnace black and thermal black.
4. (Previously Presented) Rubber material according to Claim 1, characterized in that the rubber material contains 20 – 150 parts by weight of a filler material in relation to 100 parts by weight of elastomer.
5. (Previously Presented) Rubber material according to Claim 1, characterized in that it contains a softening agent and/or mineral oil.
6. (Previously Presented) Rubber material according to Claim 1, characterized in that the rubber material also contains natural rubber and/or polybutadiene.
7. (Currently Amended) Wiper blade for windshield wipers, characterized by a rubber material including a copolymer based on isoprene and at least one further polymerizable monomer according to Claim 1.

8. (Original) Wiper blade according to Claim 7, characterized in that a segment (2), a wedge (3) and/or a wiper lip (4) of the wiper blade contain a copolymer made of isoprene and butadiene.
9. (Previously Presented) Wiper blade according to Claim 6, characterized in that a top portion (1) and/or a segment (2) contain EPDM and/or CR.
10. (Previously Presented) Rubber material according to Claim 7, characterized in that it contains a copolymer made of isoprene and butadiene.
11. (Previously Presented) Rubber material according to Claim 7, characterized in that it also contains a filler material, and that the filler material is a mixture of furnace black and thermal black.
12. (Previously Presented) Rubber material according to Claim 7, characterized in that the rubber material contains 20 – 150 parts by weight of a filler material in relation to 100 parts by weight of elastomer.
13. (Previously Presented) Rubber material according to Claim 7, characterized in that it contains a softening agent and/or mineral oil.
14. (Previously Presented) Rubber material according to Claim 7, characterized in that the rubber material also contains natural rubber and/or polybutadiene.
15. (Previously Presented) Rubber material according to Claim 2, characterized in that it also contains a filler material, and that the filler material is a mixture of furnace black and thermal black.
16. (Previously Presented) Rubber material according to Claim 15, characterized in that the rubber material contains 20 – 150 parts by weight of a filler material in relation to 100 parts by weight of elastomer.

17. (Previously Presented) Rubber material according to Claim 16, characterized in that it contains a softening agent and/or mineral oil.
18. (Previously Presented) Rubber material according to Claim 17, characterized in that the rubber material also contains natural rubber and/or polybutadiene.
